1. 100% Whole-Home Backup. 7.2kW powers your 3-ton AC, refrigerator, and the rest of your home simultaneously, with no soft starter needed.
2. 100% Whole-Home Savings. Save up to $2,900/year, with ROI in 3 years.
3. Only 30% of Traditional System Cost. Industry-first 200V architecture, custom high-rate LFP cells, and a pre-wired SHP10 help lower costs across the entire lifecycle, including upfront purchase, installation, and long-term use.
4. OASIS 3.0 — Your AI-based Home Energy Manager. Charges off-peak, powers your home during peak hours, and helps lower your electricity bill every day.
5. North America Highest Safety Standards. UL 9540 certified and tested to UL 9540A, with EV-grade LFP cells and 24/7 BMS monitoring.
NOTICE: ⚠️ AC coupling with an existing rooftop solar system requires the Smart Home Panel 10 (SHP10 240V) and a CT sensor.
